2013 Freedom Summit

After two long years without live seminars, Truthology are proud to offer its loyal members and friends a mind blowing 'Freedom Summit', to be held near Brisbane on the 23rd November 2013.

UPDATED - Welcome message from Mark Darwin

Speakers and Topics

There are some truly AMAZING keynote speakers booked to appear on stage, including:

- **Mark Darwin** (Founder of Truthology);
- **Jerry Prus** (Barrister at Law and Legal Strategist);
- **Mark McMurtie** (Founder of OSTF and True Sovereignty Warrior);
- **Graham Donnelly** (Accountant / CPA and Non-Profit Specialist);
- **Jaya Drolma** (Film maker and Fluoride Activist) and
- **Mark Harrington** (Computer and Security Consultant).

- NEW SPEAKER Just announced, **Ashtweth Palise (Manufacturer and Distributor of Black Salve products)**

All of whom will be covering the real topics surrounding 'Sovereignty' and our 'Freedom of Rights' and numerous TRUTH and security topics in a no-holds barred and open format.

Speaker Biographies

Mark Darwin (Ex-Bankster and Former Entrepreneur)
Founder and spokesman for the Truthology Foundation

Mark will be covering some key areas pertaining to how the world has ended up in this mess we are all in, and how you can play an instrumental role and making a true and meaningful change to not only your own life, but to the lives of others. He will also update everyone with results of Truthology procedures and policies to date, with some very interesting test cases, the successes and failures when it comes to using "truth" documentation against the system.

Mark will also be introducing an incredible opportunity and offer for our members to become part of an intentional community living property in the northern region of NSW, that plans to demonstrate a peaceful, healthy, sustainable and enriching way of living in harmony, on the land and with each other.

Jerry Prus-Butwilowicz
B.A. (Hons), LL.B Barrister-at-Law

Jerry is currently a Barrister-at-Law in an independent practice in both Australia & NZ

- Practices predominantly in the Human Rights, Regulatory, Criminal law, and Private Prosecution;
- Jerry has made a career out of prosecuting corrupt Police and Officials throughout the world, and is one of the very few Barristers who are available to the public for accessing private prosecution services;
- Frequently appears before: Supreme Court, District Court, Magistrates Court, AAT, Professional Regulatory Boards and Tribunals;
- Is an expert strategist and specialist advisor in both criminal and commercial matters, both in and out of the Courtroom.

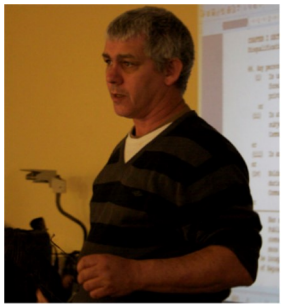
He previously operated in the United Kingdom as Senior Crown Prosecutor, HQ Casework Division, Crown Prosecution Service, National HQ, London UK , and now he will share some of his experience, insights into their world and his extensive knowledge with you at this huge event.

Jerry is an avid human rights supporter, and known for his ability worldwide, even participating recently in strategic discussions with the Ambassador of the Republic of Ecuador advising on the issue of Julian Assange and Wilkileaks. We at Truthology particularly like Jerry's ability to interface between the PUBLIC and Private worlds of both PROPAGANDA and TRUTH. Jerry offers a hard hitting reality when it comes to what might work in LAW, and what won't.

Jerry doesn't work with the 'Magic Bullet' methodology for dealing with the injustices of todays world, he will give it to you straight, based on hard facts and he doesn't flinch when it comes to taking on the corruption of the system by the ruling elite as it stands today.

Gunham Badi Jakamarra

Previously known as the legal fiction Mark McMurtrie



Describing himself as a simple but determined Tribal man and the Convener of the Original Sovereign Tribal Federation (The OSTF), Gunham Badi Jakamarra (not the legal fiction Mark McMurtrie) has long argued Sovereignty in ways others have not, and has had some remarkable success in doing so. He has a unique grasp on issues of land title, Sovereignty and our place on the land – some confronting, but all most definitely thought provoking.

Gunham has over 20 years experience in uncovering the fraud of the Crowns' claim to Sovereignty or dominion over the land and Tribes of this continent. He has a broad and in depth knowledge of how the parliaments of the UK and Australia have fraudulently tried to claim ownership over Tribal lands and people and has been instrumental in exposing the actions of the Crown Corporations' enslaving of Australians without them even knowing it by using legal processes such as Capitus Dominutio Maxima, and many other deceptions which he will take you through on the day.

He is passionate about the Sovereignty of his people, not for the sake of power, but rather for the sake of balance, equity and truth. A truth that involves everyone living on this continent.

Gunham is a true inspiration, a National hero to some and a real Pain in the bum to the Crown Corporation. He is simply a speaker not to be missed at this huge event!

Graham Donnelly

BCom ACA

Whilst Graham has been a member of the Institute of Chartered Accountants since 1984. He has carried the titles of Chartered Accountant, Certified Financial Planner & Registered Tax Agent, he is certainly not your 'run of the mill' Accountant.

Graham is a super friendly and highly knowledgeable educator, who comprehends and appreciates the two worlds of the PUBLIC and the PRIVATE realms and the interaction between the two. This is a very rare find, and we are privileged to be able to have Graham share his insights and experience with us, and to be able to refer our Truthology clients to his Practice to receive his expert guidance when trying to manoeuvre through these deliberately murky waters.

If you are in business, whether as an SME or otherwise, and operating a NFP Foundation (or considering whether or not to do so), then you must hear this man speak.

Jaya Chela Drolma

Freelance Film Professional - Flouridation Researcher and Safe-Water Activist

Jaya is a freelance film professional and vocal artist, with a wide scope of experience in the entertainment industry.

She has been a intrinsic part of the safe-water/anti-fluoridation battle in Australia for the past six years, coordinating literally thousands of emails, news reports, critical analyses, multimedia items - then sharing to the community via alternative news networks, vital Scientific and international developments in information for public discussion.

Her second major contribution has been as a filmmaker with the making of two documentary films that has contributed to the grassroots critique of the mandatory policy of water fluoridation - FireWater; and, Don't look. Won't find.

For her part of this talk, she will be showing two short films - Part 1 of her documentary film, FireWater, which deals specifically with the chemicals - where they come from, what they are made of; then speak on how these chemicals are impacting our bodies long-term. And, she will then show a short snippet from her second documentary, Don't Look. Won't Find. She will also discuss further, and include a short reading of a part of a speech she made in Bangalore, on how a tame mainstream media in Australia has not performed its duties of true critical analysis, instead supplying the public with official information, unquestioned.

Mark Harrington

B.Eng (Hons) RMIT - Independent computer, network and security consultant

Mark is an IT consultant and contractor with over 20 years experience in military, public and private environments. With a special interest in small business security and systems integration, Mark has helped many clients with developing, securing and maintaining their personal and business IT systems.

Mark has also worked with the core Truthology team in designing, developing and hosting their website, including security and user management interfaces. His company also develops websites, applications and provides IT consulting advice for Truthology clients.

Mark will speak on website development and internet safety for you and your family, electronic fingerprints and how best for you to leave as little trace as possible when conducting your daily activities online and in real life. This will include a special explanation on what services are available to you, online right now.

When and where

This Freedom Summit is for one day only near Brisbane and the spots are limited, so please don't delay in confirming your attendance at this fantastic truth and awareness event.

You simply could not be disappointed with such an excellent line up of keynote speakers, but the chance to spend the day and mingle with other like-minded truth seekers is surely to be another highlight of the day.

Summit address:

Fitzy's Loganholme Conference Centre
Pacific Hwy (cnr Fels St and Bryants Road)
Loganholme QLD 4129

7:30am registration for

8:00am start

4:00pm finish

View Larger Map
